

# Adobe Flash Catalyst (CS5)

---

One-Day Course

Windows and Macintosh

## Course Overview:

Discover how Adobe Flash Catalyst CS5 can be a solution for all your interactive publishing projects. This new interaction design tool will allow you to transform your Adobe Photoshop, Illustrator and Fireworks artwork into fully interactive and expressive projects with ease. Learn how to bring static elements to life for rich interactive documents visually without writing code. Publish finished projects as SWF or stand alone Adobe AIR applications.
