

Introduction to Adobe Premiere Pro CS5

Two-Day Course

Mac & Windows

Course Overview:

Adobe Premiere CS5 is an industry standard video editing application that empowers users to create compelling, effective and professional videos with simplicity and ease. Premiere Pro is one of the most efficient, precise and scalable editing tools on the market today and is capable of capturing and editing virtually any format. Premiere Pro has set a new standard in its native 64-bit, GPU-accelerated Mercury Playback Engine. That means scrubbing through HD footage smooth as well as layback is a breeze!
